A passionate learner always looking forward to solving practical problems and provide simple elegant solutions. An active researcher of projects that compels me to experiment with my limits and capabilities. With a strong inclination towards competitive programming, diving into the development field with JavaScript. I like chasing targets and accepting challenges as they serve as a driving force to work and excel.

WORK EXPERIENCE

Software Development Engineer SLK Software Bangalore

08/2020 - Present Bengaluru

Worked on Company's Code Migration of Frontend from Angular Js to React Js.. Works involved React Js, CSS, Redux. Migrated the whole code base to React and able to successfully deliver the Product on time. || Currently my works involves Closely working with Python and React, using these technologies trying to Implement a whole new Plugin to our Current Product.

Achievements/Tasks

- Implemented Features like Rendering a dynamic tree.
- Mapping Data together in frontend.
- Successfully implemented all basic and Advanced CSS features

Software Development Internship SLK Software Bangalore
